

Lingxiao Wang

Assistant Professor of Electrical Engineering,
Louisiana Tech University, Ruston, LA 71272
P:386-679-5947, F:318-257-2562, E-mail: lwang@latech.edu;
[Web Page](#) | [Google Scholar](#)

Research Areas:

My research involves *Robotics*, *Autonomous Systems*, and *Intelligent Systems*. I focus on developing *intelligent decision-making models* to navigate/control robotic agents.

Education:

- 2021: **Ph.D. in Electrical Engineering and Computer Science**,
Embry-Riddle Aeronautical University, Daytona Beach, FL 32114.
Dissertation: Robotic Olfactory-based Navigation with Mobile Robots.
GPA: 4.0/4.0
- 2018: **M.S. in Electrical and Computer Engineering**,
Embry-Riddle Aeronautical University, Daytona Beach, FL 32114.
GPA: 4.0/4.0
- 2016: **B.S. in Telecommunication Engineering**,
Civil Aviation University of China, Tianjin, China.
GPA: 3.5/4.0

Professional Experience:

- 2022 – : **Assistant Professor**,
Dept. of Electrical Engineering,
Louisiana Tech University, Ruston, LA 71272
- 2021 – 2022: **Visiting Assistant Professor**,
Dept. of Electrical Engineering and Computer Science,
Embry-Riddle Aeronautical University, Daytona Beach, FL 32114
- 2018 – 2021: **Graduate Teaching Assistant**,
Dept. of Electrical Engineering and Computer Science,
Embry-Riddle Aeronautical University, Daytona Beach, FL 32114

Honors and Awards:

- 2023: **RED Travel Grant Award**,
Louisiana Tech University
- 2020: **Outstanding Doctoral Student** of Electrical Engineering and Computer Science,
Embry-Riddle Aeronautical University
- 2017: **Outstanding Master Student** of Electrical Engineering and Computer Science,
Embry-Riddle Aeronautical University

Scholarship:

Articles in Peer-Reviewed Journals (*Corresponding Author)

Research Grants:

- [G1] **PI:** June 2024 – June 2027, “Advancing Embodied AI for Enhanced Robotic Odor Source Localization”, Louisiana Board of Regent, **\$108,000, Funded.**
- [G2] **PI:** August 2024 – August 2025, “Deep Learning-based Aerosol and Ocean Parameter Retrieval from Polarimeter and Lidar Data”, LaSPACE Research Enhancement Award, **\$35,000, Funded.**
- [G3] **PI:** August 2024 – August 2025, “Predicting New Thermoset Shape Memory Polymers via Transformers and Graphic Neural Networks”, Louisiana LAMDA Seed Grant, **\$40,000, Funded.**
- [G4] **PI:** Feb. 2025 – Jan. 2026, “CO₂ Monitoring via an Integrated Robotic and Sparse Sensor System”, NSF FUEL, **\$124,799, Funded.**
- [G5] **PI:** July 2025 – June 2026, “Empowering the Future Workforce of Electrical Engineering for Louisiana Energy Industry”, NSF FUEL, **\$100,000, Funded.**

Teaching Experiences:

Louisiana Tech University

2022 –

- **ELEN 471:** Automatic Control Systems
 - This course centers on automatic control systems, including topics of system modeling, control system analysis, PID, and root locus controllers.
 - Received **4/4** in teaching evaluation surveys in 2022 and 2023 academic years.
- **ELEN 472:** Digital Control Systems
 - This course focuses on digital control systems, including topics of z-transform, system stability test, controllability and observability, and digital controller designs.
 - Received **4/4** in teaching evaluation surveys in 2022 and 2023 academic years.
- **ELEN 451/CSC 499:** Hands-on AI and Robotics
 - This course introduces AI & Robotics fundamentals, including neural networks, supervised learning, reinforcement learning, Transformers, Large Language Models, etc.
 - This course incorporates a series of small-scale projects that allow students to implement the learned knowledge to solve actual problems.

Embry-Riddle Aeronautical University

2018 – 2022

- **EE 327:** Electrical Engineering Fundamentals
 - This is an introduction course of Electrical Engineering, covering topics in electrical circuits, Ohm’s Law, and logic circuits.
 - Received positive teaching evaluation that surpasses the department average in 3 consecutive years.
- **CS 450:** Senior Design Projects

- Instructed 50 senior students for senior design projects.

Service:

Service to Profession

- Manuscript Reviewer for Professional Journals:
 - Elsevier Expert Systems with Applications
 - Elsevier Building and Environment
 - MDPI Drones
 - SICE Journal of Control, Measurement, and System Integration
- Manuscript Reviewer for Peer-Reviewed Conferences:
 - International Conference on Robotics and Automation (ICRA) 2022, 2023, and 2024
 - IEEE International Conference on Machine Learning and Applications (ICMLA) 2021
 - IEEE International Conference on Ubiquitous Robot (UR 2021)
- Mail Reviewer for Federal Funding Agency Programs:
 - NASA Vermont EPSCoR Preproposal Review

Service to Academic Program

- Faculty Search Committee 2024-2025
 - Committee member in searching for Assistant Professor or Electrical Engineering
- Ph.D. Committee
 - Committee Chair: Khan Mahmud, Sunzid Hassan
 - Committee Member: Jiahao Li, Deepak Lama, Vivya Kalidindi, Ramon Mufutau, Yan Deng.
- Student Organizations
 - Faculty Advisor: Louisiana Bulldog Robotic Club
